Dear Friend;

Thank you for your interest in Energy Healing Classes.

There are many alternative healing modalities available today. Many have similar methods and themes as to how they work. I teach general theories and practices. With a wide variety of education and experience in energy healing, I am able to suggest other courses for those that are drawn to more specific techniques.

The ultimate goal of these lessons is to empower each participant to heal themselves and others through individual connections with divine guidance. In my practice I use many learned modalities but I have found that the simplest solution is always the best. Therefore, I ask the divine to show me what I need to see and show me how I can help. Participants will discover new tools and trust their abilities to heal with great love and compassion through their own connection.

The Classes

All classes are held in small groups with extensive of hands on practice.

The Introductory classes may be taken individually or in any order.

It is advised to complete level I or have previous experience prior to enrolling in Level II classes.

These courses are designed for participants who have either no experience or some basic experience in performing energy work or healing. Practitioners with more extensive experience are advised to consult with me to find the right level for them prior to enrolling in a class. Each class is eight - nine hours. It is not advised to do all eight hours in one day. I try to schedule each class over two days in a row or within a week apart. For best results it is suggested that the classes be taken in the following order;

Level I classes include

Introduction to Energy Healing
Energy and Intuition
Introduction to Meditation and Journey
Energy Healing – putting it all together

Level II classes include

Removing Intrusive Energies
Shadows and Possibilities
The energy of Death and Dying
Manifesting Destiny
